Do amazon prime now drivers see tip 2020

They have been dinging for delayed deliveries even if it is out of their control altogether, which may prevent them from having any deliveries. In the future. To take your orders, they must be quick and combat traffic, bad weather, which makes their job extraordinarily stressful. Think about it! We are tipping a pizza delivery man who will always sit around the restaurant and grab your order to take you. Prime Now drivers are doing more than o serve you, why don't you want to tip them? As they say, giving doesn't make anyone poor. Tipping a few dollars won't hurt shoppers' budgets. Amazon Prime delivery people certainly deserve tips. In my personal opinion, they deserve better tips than restaurant workers or pizza delivery people. If they do what they have to do and stay polite with you, you should tip them. How much should you tip an Amazon Prime delivery? Most people who use Prime Now choose free 2 hours or 1 hour of paid delivery. Both delivery options are quiet, time-sensitive and pressure prime now to send people to make a lot of effort to keep up. Considering that they need to use their own car to pay for gas, insurance and the low wage level where they live, a good tip can help a lot for these people. If you have multiple packages to carry or no elevator to serve to your floor, it makes sense to tip \$10-\$15 depending on the difficulty of the job. Ultimately, Amazon is a great company, and prime now system saves time and money for a lot of people. It would be better if Amazon could support prime delivery people now because there are enough resources to do it.
